Summary

motivated second year engineering student with a strong foudation in Python and its libraries, including Pandas, Matplotlib , NumPy . Skilled in SQL and passsionate about data science. Eager to apply analytical and programming skills to contribute to innovative data-driven and gain practical experince in the field.

Skills

Python and its libararies(NumPy Pandas and matplotlib) Excel-SQL Tool / Technology

Education

Sanskar College Of Engineering And Technology

B.tech computer science AI&ML

Date period

Interests & Hobbies

I am deeply passionate about data science and continuously seek to expand my knowledge and skills in this field. I enjoy working with Python and its powerful libraries such as NumPy, pandas, and Matplotlib to analyze and visualize data. Additionally, I have a strong interest in SQL for database management and Excel for its versatility in data manipulation and analysis.
